

For complete view of network traffic, ENT Credit Union Gains East-West Network Traffic Visibility with Check Point Next Generation Firewalls

“Check Point gives us peace of mind, knowing that our members' information stays safe and secure. That peace of mind is invaluable.”

Check Point firewalls and R80 Cyber Security Management enable complete visibility and rapid incident response

— Scott Perry
IT Security Architect
ENT Credit Union

Challenge

- Improve security posture with ability to see east-west traffic
- Simplify infrastructure complexity

Solution

- Check Point Quantum NGFW
- Check Point R80

Results

- Gained full visibility into east-west traffic for complete view of network traffic
- Simplified security infrastructure and management
- Accelerated response and remediation
